SoftClinic™

#1 Doctor Recommended Software for Clinics & Hospitals

SoftClinic software is designed keeping in mind all the physicians. It is currently being used by more than 500 doctors every day. SoftClinic is useful for physicians, surgeons, small hospitals & nursing homes for computerizing their facility.

SoftClinic is the only software providing Mobile Synchronization & Indoor Patient Management Modules with OPD modules. You will not find any clinic software with so many features and modules at such a low price.

JVS Group is a leading healthcare IT company providing best of clinical software and services in India and abroad. **SoftClinic** is equipped with best after sales services from **JVS Group**.

I have been using SoftClinic Software since 3 years. It is best suited for cardiologist and all physicians.

Dr. Sameer Dani
Interventional Cardiologist

SoftClinic is very useful software for a gynaecologist. I made right decision by implementing SoftClinic in my hospital. Now my staff is organized and can spend more time on patient care.

Dr. Sapna Singh
Obstetric and Gynaecologist
